

2-FACTOR SECURITY THAT SUITS

CUSTOM AirID

Strong 2-factor security
for your individual needs.

YOU CHOOSE THE FORM FACTOR

Whether bracelet, USB stick or in the form of your choice. It can be used as a device for accepting existing smart cards or a fixed built-in „secure element“.

Custom ONEKEY with Bluetooth and induction charging station

Bottom: CUSTOM ONEKEY as bracelet with Bluetooth and two button interface

INDIVIDUAL TECHNOLOGIE

Various smart card sizes, with cable-, plug- and wireless interfaces, onboard flash memory, different displays and LEDs, battery or rechargeable battery – also via Qi charging – many choices in combination with certified security chips offering practically infinite possibilities. Together with you we will work out your individual perfect balance between security, usability and costs.

NFC

BLE 4.0

USB

PERFECT FOR MODERN REQUIREMENTS

Today, smartphones and tablets are omnipresent in the business world. No matter which platform you choose. You will be perfectly positioned with your individual security ID, which includes drivers and SDKs for all common platforms.

Custom AirID with BLE, USB and one button interface in various colors

CUSTOM-MADE PERFECTION

Whatever form factor you may choose, we will bring the technology into a design that perfectly suits you. You can rely on quality work from "Security Made In Germany".

Example: Custom AirID with one button interface

INTERNATIONAL STANDARDS

Your CUSTOM AirID will be based on national or international standards, enabling compatibility worldwide with most common IT systems. The crypto chip has been certified according to the globally recognized Common Criteria Standard (EAL5+). Compliance with international environmental standards will be guaranteed.

RoHS

FC

CE

OPTIMIZED FOR YOUR IT ENVIRONMENT

No matter which devices you will use. Your individual CUSTOM AirID will provide your digital certificates and keys to all your authorized devices. Especially in mobile environments, the CUSTOM AirID, is showing its strengths and connects to your smartphone, tablet, laptop or desktop via BLE and NFC. Extend your use cases to payment and physical access, to focus on one digital key.

- ✓ Certified EAL5+ security for your company
- ✓ Exactly in your corporate design
- ✓ Optimized for your requirements
- ✓ Secure your Smartphone, Tablet & PC via Bluetooth
- ✓ Also available with NFC (Payment, Physical Access, etc.)

FITS 100% TO YOUR REQUIREMENTS

Jointly with you, we will determine your exact requirements in a dedicated workshop and document all of them. Afterwards, we will create custom-fit designs drafts for components, performance and design studies as 3D rendering models for your individual AirID. Upon request, we may carry out an additional certification for you. Depending on your requirements and design, we will work out with you to calculate needed delivery time and production volume.
